Academic Assignment Submission

LAB-04

Task-01: (Positive and negative check)

```
#include <iostream>
using namespace std;
int main( ){
    int num;
cout <<"enter a number: ";
   cin >> num;
 if (num >=0 ){
   cout <<" Number is positive: "<<numcend
    }
```

```
else {
cout << "number is negative: " << num << endl;
    }
  return 0;
    }
```

Task - 02:

(positive, Negative, zero)

```
#include <iostream>
 using namespace std;
 int main ( ) {
 int num;
cout << " Enter an integer: ";
  Cin >> num;
 if ( num > 0 ) {
cout << "Number is positive" << endl;
} else if (num < 0 ) {
 cout << "Number is negative" << endl;
} else {
  cout << "Number is zero" << endl;
    }
     return 0;
```

}

Task - 03: Grading system

```
#include <iostream>
using namespace std;
 int maths ( ) {
  int marks;
cout<<"enter your marks: ";
  cin >> marks;
 if(marks >=75){
 cout <<" Grade: A " << endl;
 } else if(marks >=60){
  cout <<"Grade: B" << endl;
 }else if (marks >=45){
  cout << "Grade: C" << endl;
 } else if (marks < 30 ){
 cout <<" Grade: D" << endl;
  } else {
 cout <<" Grade : Fail / D" << endl;
    }
   return 0;
    }
```

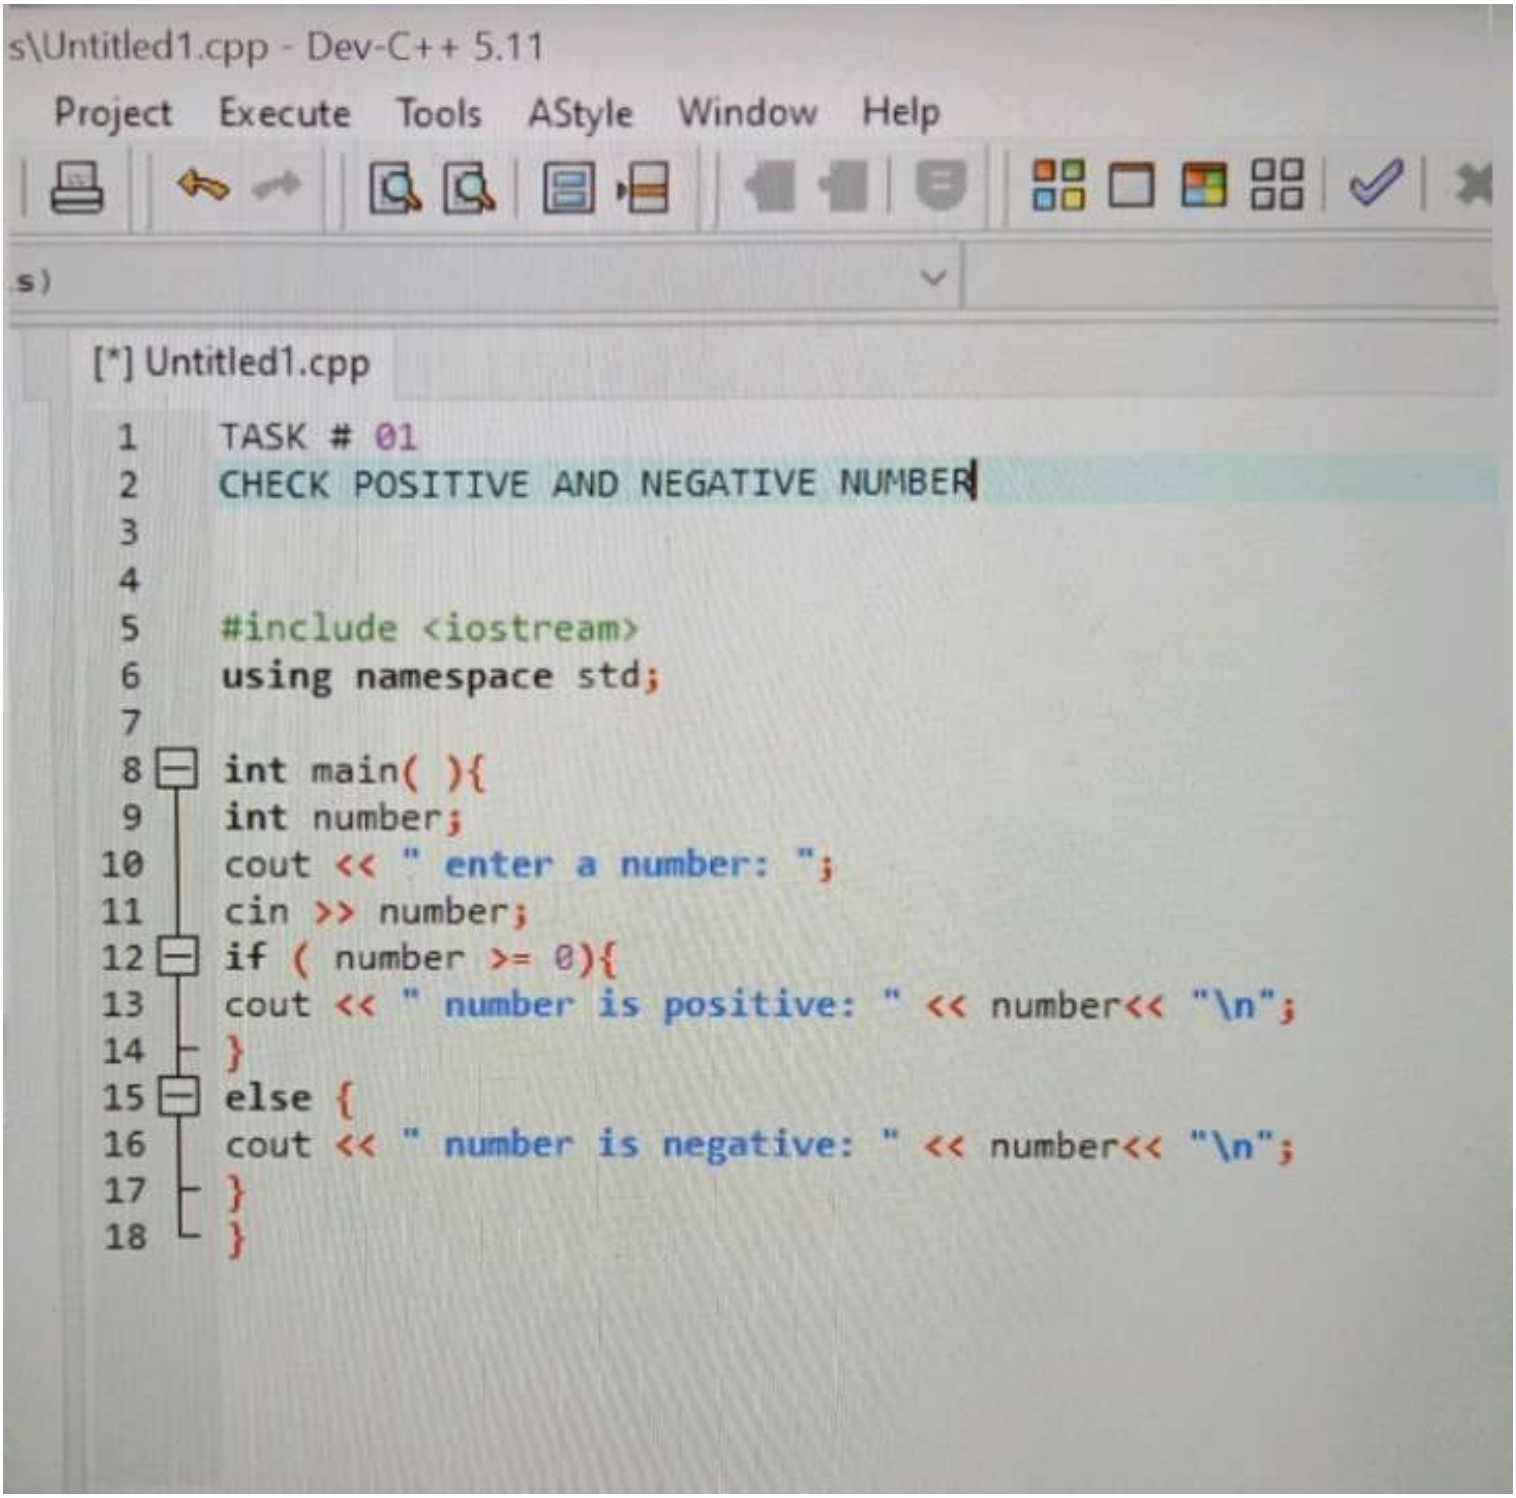

K&

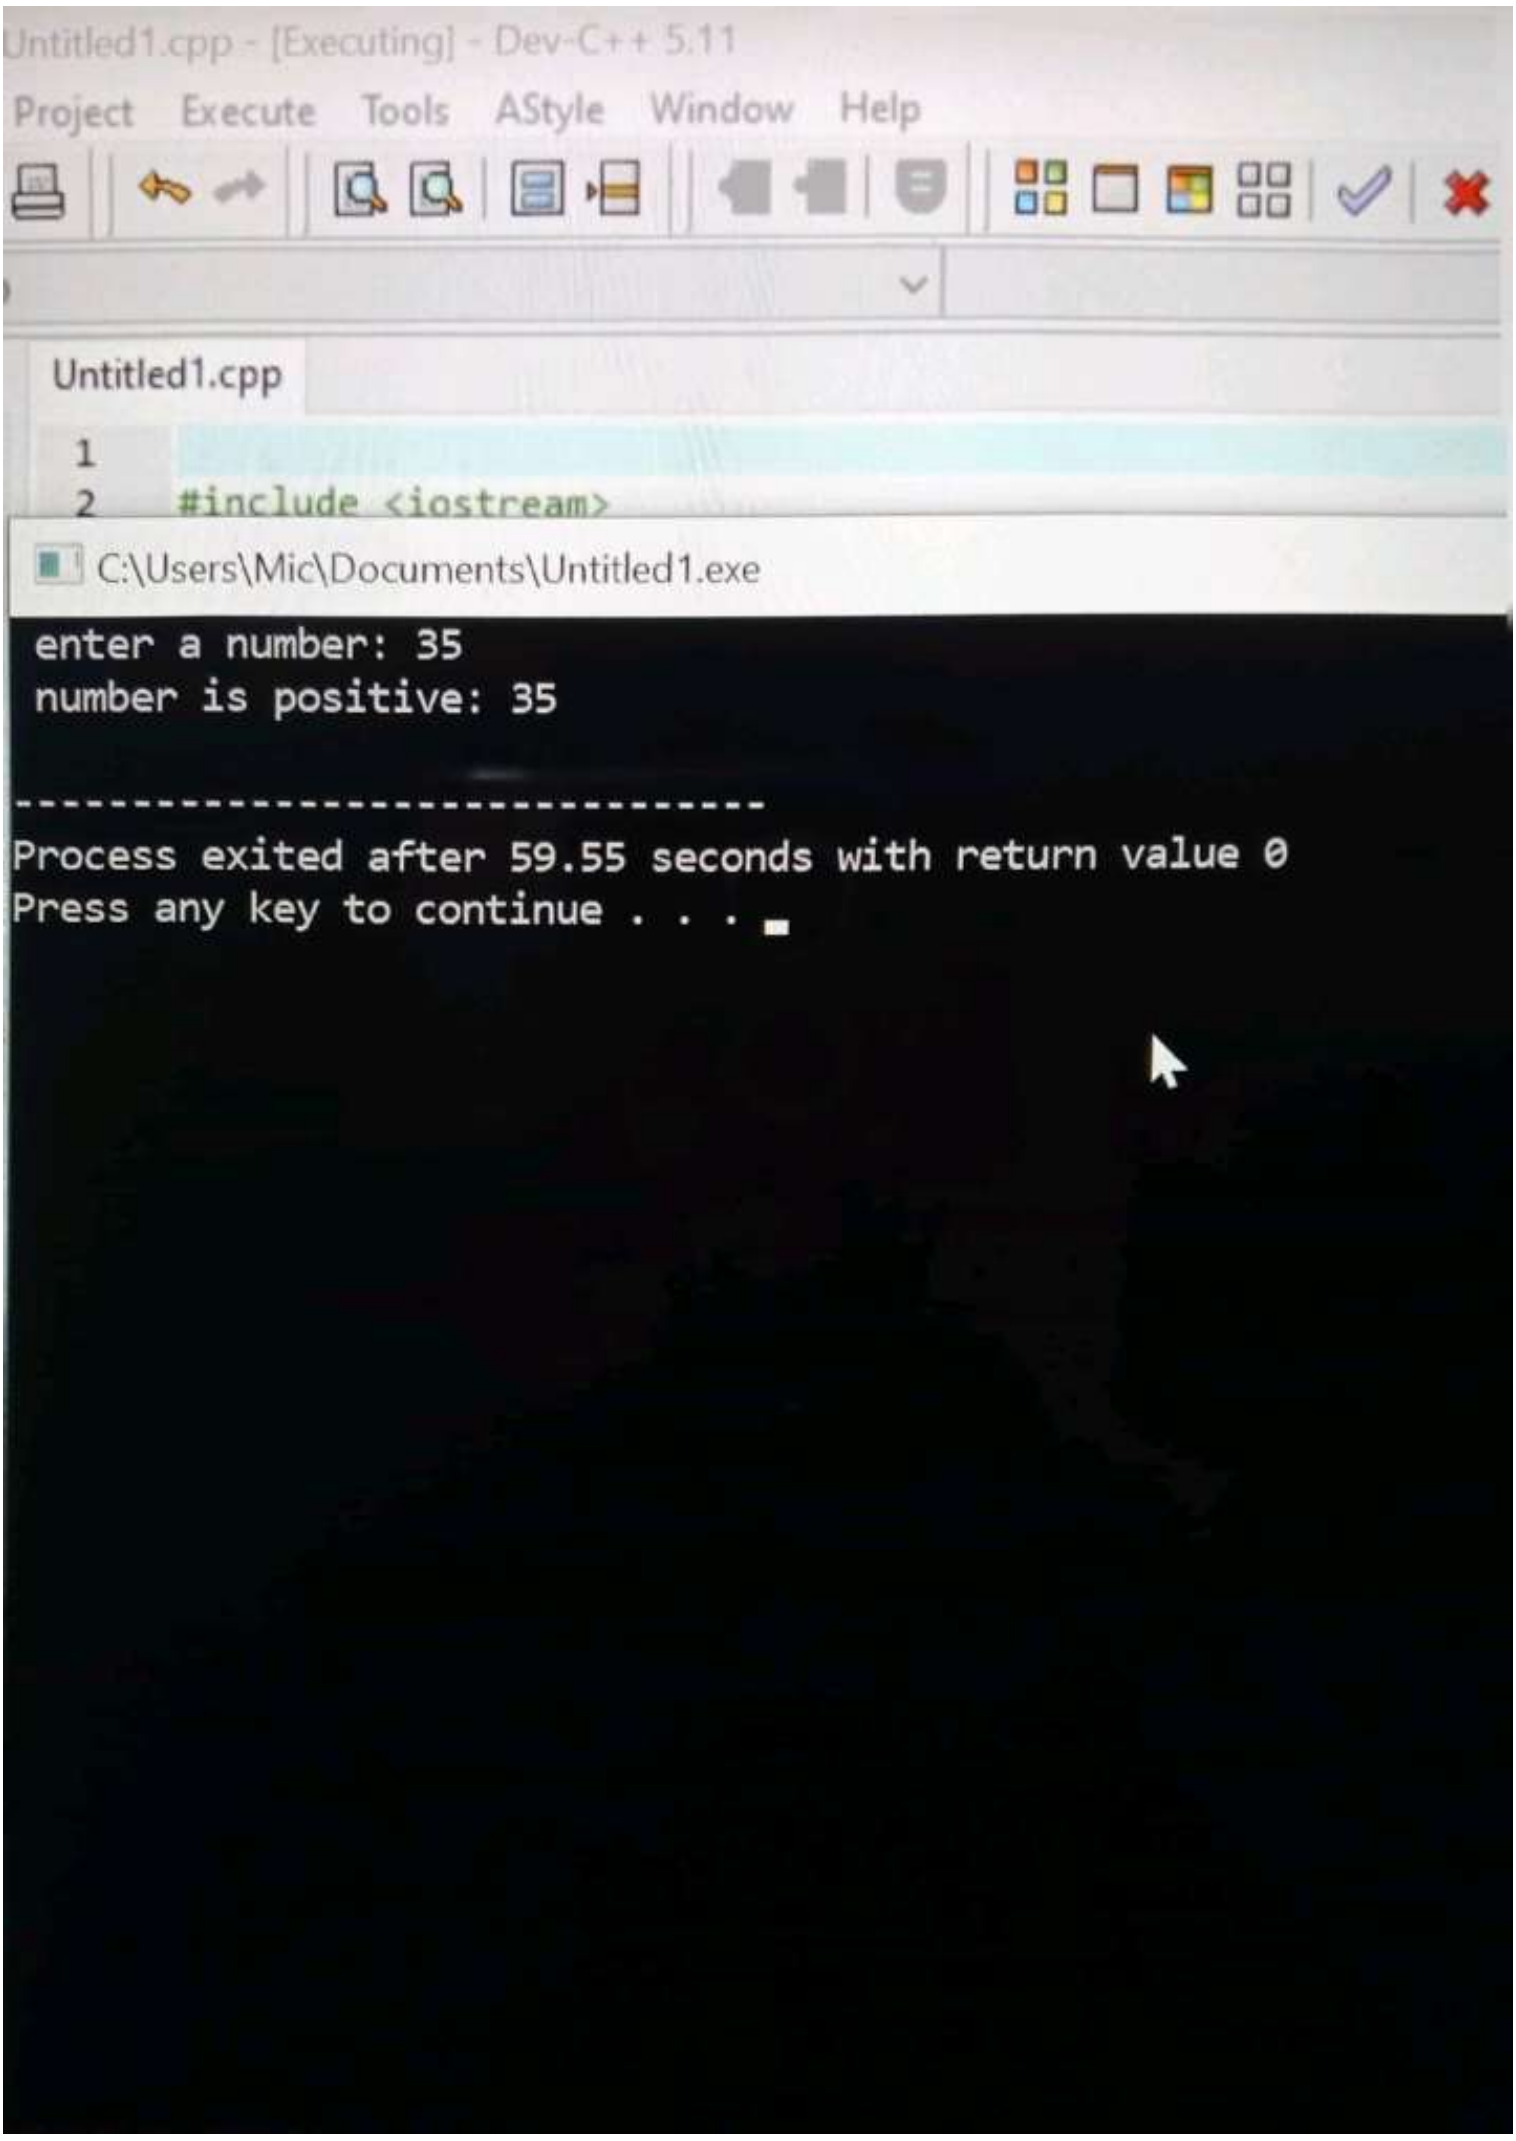

Task 4: Largest number by using Nested if:

```
#include <iostream>
using namespace std;
int main( ) {
int n1 , n2, n3;
cout<<"enter three numbers: ";
cin >> n1 >>n2 >>n3;
int largest;
if (n1 >=n2) {
   if (n1 >=n3 ) {
          largest =n1;
  } else {
        largest = n3;
    }
} else {
   if (n2 >=n3){
        largest = n2;
    } else {
        largest= n3;
      }
   }
cout<<"largest number is: "<< largest<<endl;
```

K&S

```
    int num;
cout<<"\n enter a number to check
    positive and count digits: ";
    cin >> num;
 if (num>0) {
cout <<" Number is positive "<< endl;
    int temp= num;
    int count= 0;
while (temp!=0) {
        temp= temp/10;
  count ++;
    }
cout <<" total digits: "<< count<< endl;
  } else {
 cout <<" Number  is not positive"<<endl;
    }
  return 0;
  }
```
